*This event is twofold. First, it will help me create some much needed space in my studio and storage area, which are currently filled with art from the last three decades! I am literally submerged in all this art. Second, this will allow me to obtain some significant works for my planned [L'Atelier de L'Amour](#) exhibition; works just made available to me for an incredible price, but still much more than what I would typically spend even over a 3-5 year period.*

Browse the [website](#) or this catalog (which has additional images not online) to find available artwork. Or [email](#) if you don't find something or if you need to see higher detail of any image(s).
